Education

ARIZONA STATE UNIVERSITY

Bachelor of Science in Mechanical Engineering, Barrett, The Honors College

Brophy College Preparatory

High School Diploma, GPA: 3.67/4.00 (4.03 weighted)

Tempe, AZ

Expected May 2030

Phoenix, AZ

May 2026

Honors & Awards

- FIRST Industrial Design Award — FIRST Robotics (2026)
- FIRST Deans List Semi-finalist — FIRST Robotics (2025)
- FIRST Inspire Award — FIRST Robotics (2024)
- St. Ignatius of Loyola Leadership Excellence Award — Brophy Robotics (2026)
- Distinguished Student Award — Brophy College Preparatory (2026)

Engineering Experience

BROPHY ROBOTICS

Phoenix, AZ

Team Operations Director, President

June 2022 – May 2026

- Led operations for an 80+ member FIRST Robotics program spanning 10 competition teams (FRC, FTC, and FLL), overseeing logistics, budgeting, inventory, and competition readiness.
- Grew the program from 20 members across 3 teams to 80+ high school members and 20+ middle school participants across 10 teams through recruitment, outreach, and organizational leadership.
- Planned team retreats, outreach events, and travel for regional and out-of-state competitions while mentoring FTC and VEX students in robot design, programming, and engineering principles.

BROPHY COLLEGE PREPARATORY

Phoenix, AZ

Robotics Camp Instructor & Teaching Assistant

Summer 2025

- Developed and taught a month-long VEX IQ robotics curriculum for 140+ students, introducing engineering, programming, and iterative design through hands-on projects; recognized by school leadership for curriculum development.

Hope Ignites Phoenix

Phoenix, AZ

Middle School Tutor/Intern

October 2025 – May 2026

- Provided one-on-one and small-group mathematics tutoring, helping middle school students strengthen problem-solving skills and academic confidence.
- Assisted with program operations and mentored students through academic and community service activities.

Leadership & Service

BROPHY CHILL PATROL

Phoenix, AZ

Service Chairman

June 2024 – May 2026

- Helped establish a student-led heat relief initiative that grew into a school-wide nonprofit, coordinating volunteer recruitment and summer outreach throughout the Phoenix area.
- Organized the distribution of cold water, heat-relief supplies, and resource information to community members while promoting sustained student involvement.

Projects

- **FRC Electrical System:** Designed and assembled the complete electrical system for an FRC competition robot.
- **Solar Oven:** Designed, prototyped, and tested a solar oven.
- **Cardboard Canoe:** Designed and fabricated a functional cardboard canoe.

Skills

CAD (Onshape), Arduino • FRC Electrical Systems, Soldering, Mechanical & Electrical Assembly • 3D Printing, Laser & Waterjet Cutting, Manual Machining, Power Tools • AI Tool Proficiency, Microsoft Office, Google Workspace, Adobe Creative Cloud, Canva
